### **Kari Berit — Advance Care Planning**

"We couldn't have chosen a better speaker for our event. Kari's approach is warm and sincere, woven with humor. With her personal and professional experience, Kari took a sensitive topic and made the audience understand just how important talking about how you wish to live while you are dying is. She inspired thoughtful questions from, and discussion with, the audience and moved people to take action on one of life's most challenging, yet rewarding conversations."

**-Providence Health & Services, SW Washington**
